BABY SPINACH QUALITY ALERT

Due to heavy rain, hail and humidity the quality of Baby Spinach is currently very poor.

SAJ Fruit Supply can buy the product but, cannot guarantee the quality or shelf life.

BROCCOLI SUPPLY ALERT

Due to the lack of water in the growing regions in QLD and unseasonable weather including heavy rain, hail and humidity here in Victoria, the quality, price and availability of Broccoli is very poor.

This is an Australian wide problem not just here in Victoria. Advice from local producers is that the supply of Broccoli over the next couple of months will be like a rollercoaster.
